

Process Mapping Training Course

About This Course

Process Mapping Training Course

Do you want to make better business decisions and make the process of communicating business processes more effective?

Our Process Mapping Training Course will introduce you to the basics of putting together process maps and how to use them to drive continuous business improvement. Find out how to make better decisions and improve training in your business.

This Process Mapping training course is delivered as a scheduled open online training course or in-house just for your business.

We deliver the course as a face to face course and a live virtual online course.

The Course Aim & Objectives

Here's what you will learn on our process mapping course

Course Aim

This Process Mapping Training Course will introduce you to the process of Process Mapping. The course will show you how to build a basic process map and then how to use them effectively once assembled.

The course will show you how to do this in a collaborative way, gaining buy from those who are directly and indirectly affected by the process.

The course also allows ample time for building a process map and discussions around process mapping.

Course Objectives

By attending this Process Mapping Training Course you will:

- Understand what process mapping is and its benefits
- Know how to produce basic process maps
- Be able to apply to apply basic analysis techniques to business processes and how to use process mapping to improve them
- Be able to demonstrate the process of process mapping using real examples

The Course Content
